

**MODERN ART
OXFORD**

Modern Art Oxford is the ideal venue for private events, seminars, concerts, performances and parties, with its striking post-industrial spaces in the very centre of the city of Oxford.

A few steps from the main thoroughfare between Christ Church college and Westgate Oxford, our spaces are within reach of Oxford's research and creative industries and universities.

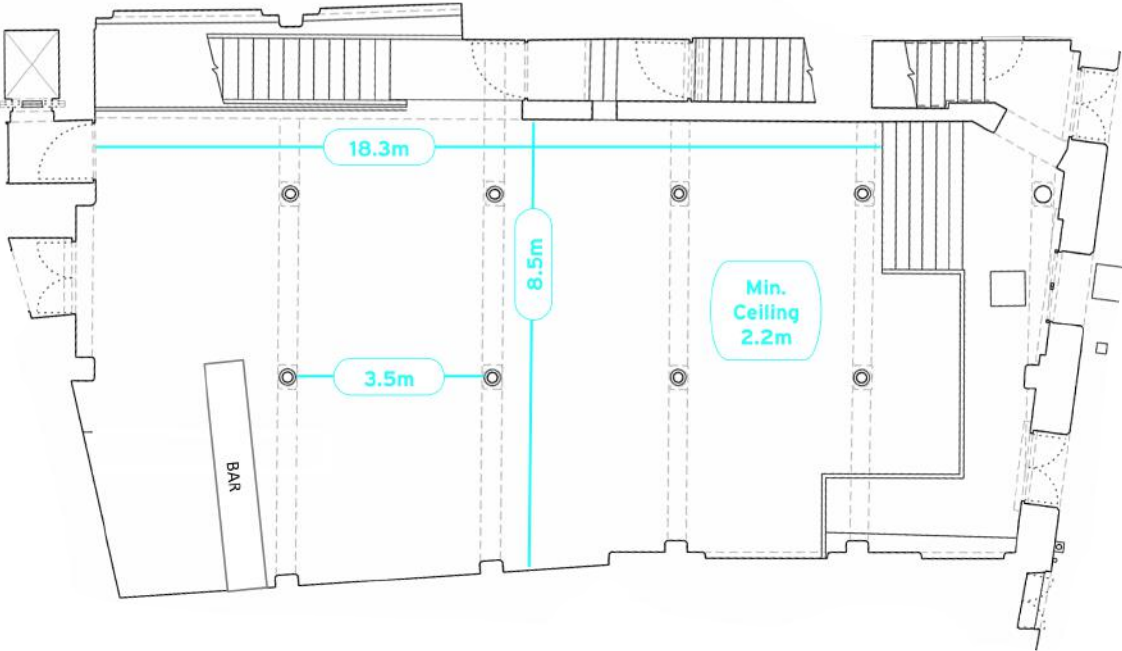

Originally built as a brewery, the building offers many spaces each with their own unique architectural tone, atmospheric features and original ironwork.

THE CAFÉ

THE CAFÉ is an architecturally significant example of a fully renovated post-industrial space, complete with black iron pillars from the Oxford ironworks in Jericho, as well as the original vaulted ceiling of the old brewery buildings.

The space is fully accessible by lift and ramp, and has dimmable multiple temperature lights for setting the mood. You are welcome to use your own equipment or the designer furniture at the gallery.

The Café makes for an excellent reception before your gallery tour or during the interval to a performance. It can also be used independently for concerts, receptions and parties.

Seated in rows lengthways	110
Seated in rows widthways	80
Party with occasional tables	120
Standing only	240
Seated dinner with round tables	96
Seated dinner with long tables	78

For Networking

The 15-foot bar is an ideal focal point to entice your delegates into the building. The vaulted brickwork has been sound engineered to make conversation easy and enjoyable. There is plenty of space for presentations using our portable AV suite.

For Parties & Dinners

Sealed concrete floors are perfect for dancing, and the open-plan journey to the bar encourages your guest to mingle and relax.

For Concerts & Lectures

Bright and clear, the Café is the best place for presenting to groups of 50 or more. If you are looking for a smaller area, look no further than the Basement.

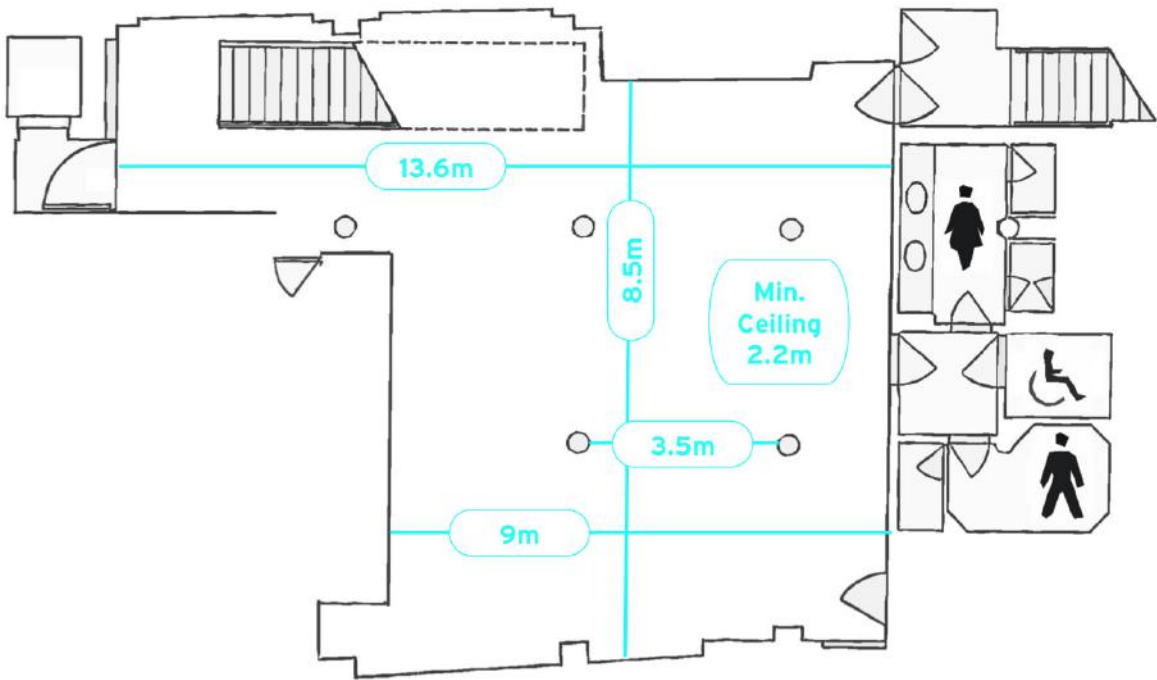

THE BASEMENT

THE BASEMENT can be hired on its own or as one of the rooms for an evening hire.

It is best suited to small talks, film screenings, workshops, or presentations. In combination with the Café, it is a popular gig venue, offering a distinct contrast to the dinner or networking taking place in the rooms above.

Versatile lighting systems can be used to enhance the equipment of your DJ or band, or light the room with your colour scheme.

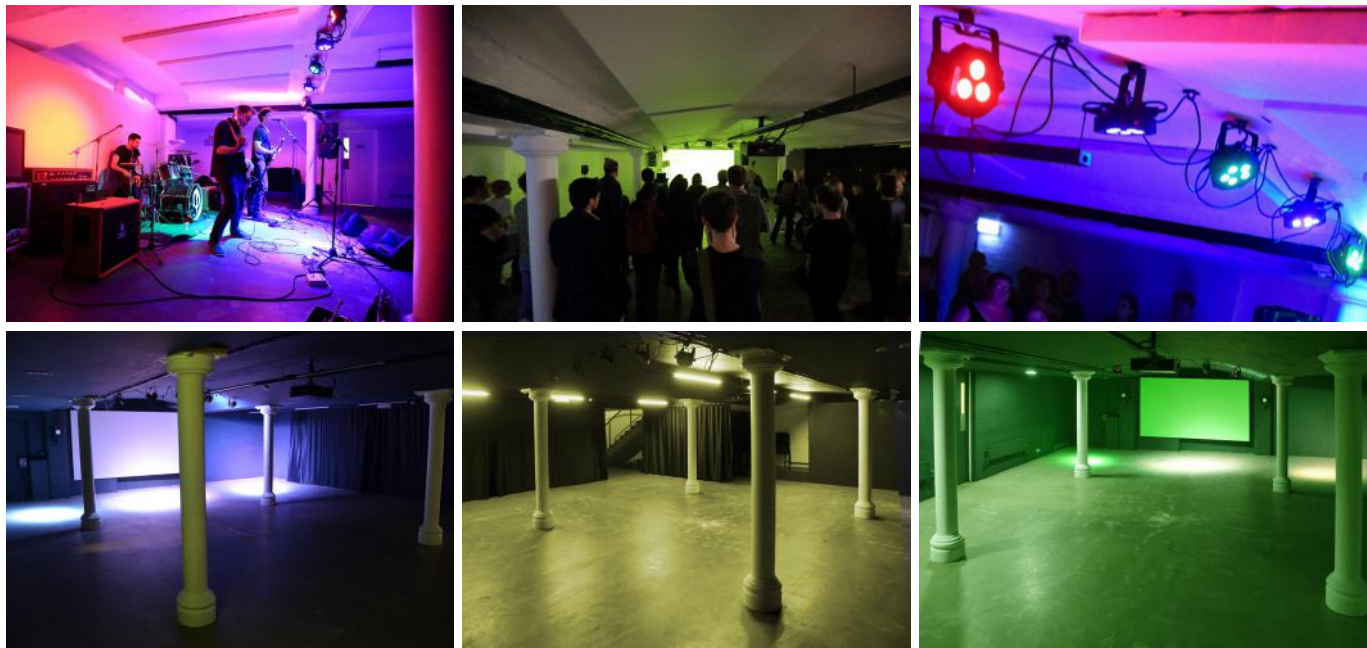

Cabaret	32
Standing	170
Film screening	50
Workshop	16
Dancefloor	100
Boardroom style	12

For Performers

Sound tuning and a low-vaulted ceiling give acoustic and amplified bands alike the chance to enthrall their audiences. Film screenings are also popular as our HD projector and stereo sound setup give your audience a cinema-quality experience.

For Learning

Our learning team have worked to design the Basement as a safe, relaxing and engaging space for visiting community groups. Benefit from the existing resources or bring your own. You can even take part in one of our professional development courses, and get a valuable insight into the importance of contemporary art.

THE YARD

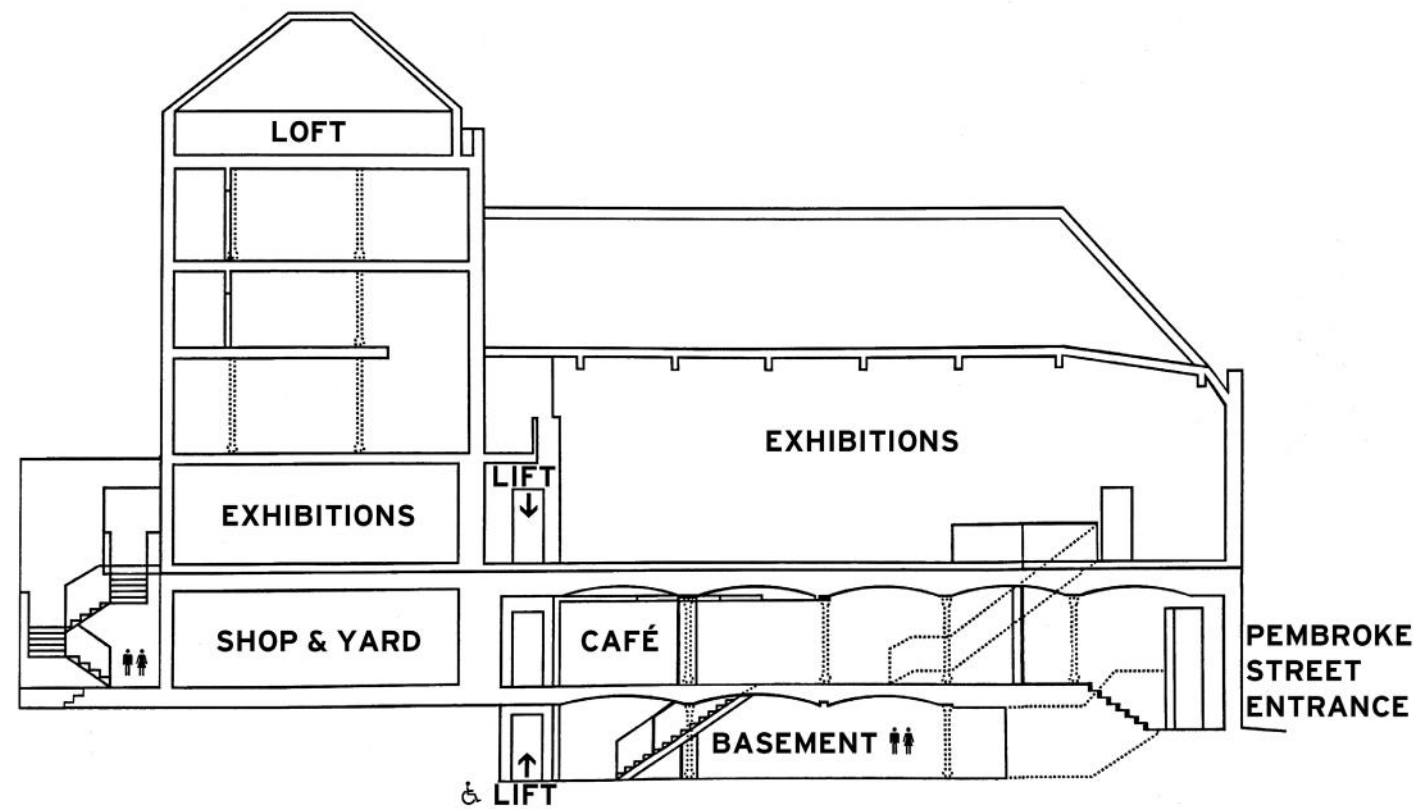

The Yard is a large open space used by past clients for automotive product launches, craft beer festivals and craft markets.

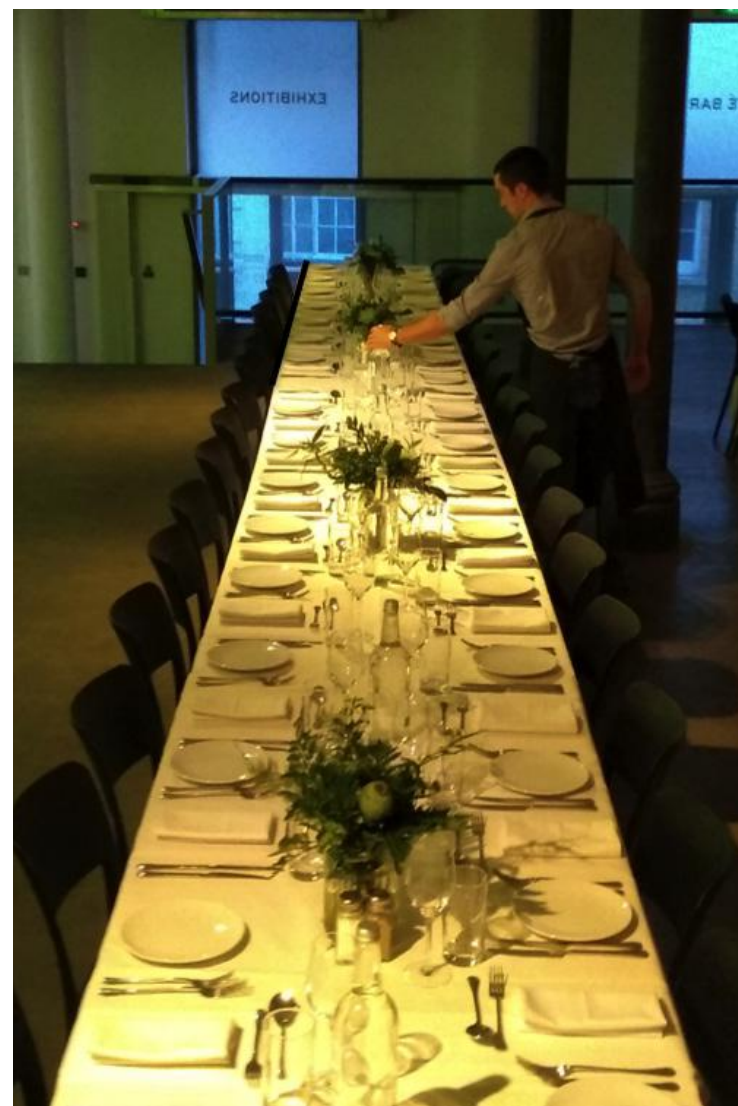

If not being used as a reception area, there is limited secure off-street parking for evening events.

THE LOFT

The Loft is the literal high-point of the gallery. The architectural pinnacle of the building, this room has views of the countryside and the city. The original industrial structures are perfect for photoshoots and filming.

The Loft is only accessible by staircase.
